I can't believe it's March already! March is Disability Awareness Month. This year's theme is "I'M NOT YOUR INSPIRATION". I really like the theme this year. The theme's focus is that people with disabilities are people first. I will be sending home a booklet in each of the family folders this week called "DISABLE DISRESPECT". It is "a thoughtful guide for your words and actions". It talks about how you can show respect with your words and actions. I would encourage each family to read through it together. There are 6 posters hanging around the school to help bring awareness to our staff and students by reminding us that people with disabilities are our neighbors, co-workers and classmates. The teachers will also be giving each of the students stickers and bookmarks. #DisableDisrespect

SMOKE ALARMS

Put Smoke Alarms in Your Home to

Keep Your Family Safe

Almost 2,500 people die in home fires every year in the United States. Most of these people live in homes that do not have working smoke alarms. Smoke alarms save lives. Keep your family safe. Put working smoke alarms in your home.

- Smoke is poison. It can kill you.
- Smoke alarms make a loud noise when there is smoke in your home.
- Smoke alarms wake you up if you are sleeping.
- Put a smoke alarm on every level of your home and outside each sleeping area. Put a smoke alarm inside every bedroom.
- Smoke goes up. Put smoke alarms on the ceiling or high on the wall.
